Javascript & jQuery, Website Development 1 & 2, Java Programming, C# Programming, Mobile Android Development, Systems Analysis & Design, Web Database Development (PHP & MySQL), UNIX Operating Systems

Experience

Java Programming Peer Tutor -- (January 2020 - May 2020)

- As one of the Java Peer Tutors at Farmingdale State College, I was able to help struggling students better understand any concepts that they needed clarification on
- I also had the opportunity to create different forms of learning material for students receiving tutoring -- such as narrated PowerPoints as well as step-by-step video tutorials

Freelance Web Development -- (May 2019 - Present)

- Created a fully responsive website for a California based painting company
- Worked with client to get them the exact production-ready site they wanted

Colorized History -- Photo Colorizer (July 2015 - Present)

- Worked alongside Mads Madsen, colorizing and restoring historical black & white photographs
- Fulfilled work for clients to their immense satisfaction, most notable clients being The History Channel and The Civil War Monitor

Projects

Keep my Notes -- KeepMyNotes.app -- Spring 2020

- I created a full-stack notes application with React on the front-end, and Google Firebase on the back-end
- This project presented itself as a wonderful learning experience for me, helping me grow as a web developer and further improve my skill set - especially with React, as well as Google Firebase

Web Dev Resources -- WebDevResources.info -- Summer 2019

- Web Dev Resources was created to consolidate and organize the wide collection of web development resources that I have accumulated, and share this resource with the online web development community as a whole

Languages

- German - Intermediate
